Why Go?
Nowhere in New Zealand is changing and developing as fast as post-earthquake Christchurch, and visiting the country’s second largest city as it’s being rebuilt and reborn is both interesting and inspiring.
A short drive from Christchurch’s dynamic re-emergence, Banks Peninsula conceals hidden bays and beaches – a backdrop for kayaking and wildlife cruises with a sunset return to the attractions of Akaroa. To the north are the vineyards of the Waipara Valley and the family-holiday ambience of Hanmer Springs. Westwards, the well-ordered farms of the Canterbury Plains morph quickly into the rough-and-tumble wilderness of the Southern Alps.
Canterbury summertime attractions include tramping along the braided rivers and alpine valleys around Arthur’s Pass and mountain biking around the turquoise lakes of the Mackenzie Country. During winter, the attention switches to the mountains, with skiing at Mt Hutt. Throughout the seasons, Aoraki/Mt Cook, the country’s tallest peak, stands sentinel over this diverse region.

When to Go
January
Christchurch comes alive with the World Buskers Festival, a global showcase of street performance.

February to March
Long summer days provide plenty of opportunity to get active amid Canterbury’s spectacular landscapes.

July to October
Hit the slopes at Mt Hutt, or go local on Canterbury’s smaller ski fields.
Getting There & Away
Christchurch has an international airport serviced by domestic airlines flying to key destinations around NZ. International connections include Brisbane, Sydney, Melbourne and the Gold Coast in Australia, and Kuala Lumpur and Singapore in Asia.

Bus and shuttle operators scurry along the east coast, connecting Canterbury’s coastal (and near-coastal) settlements with northern destinations such as Picton and Nelson, and southern towns like Dunedin and Queenstown. Other operators connect Christchurch to Arthur’s Pass, the West Coast and Mt Cook.

Rail options for east-coast and coast-to-coast travel are provided by KiwiRail Scenic (www.tranzscenic.co.nz). The TranzAlpine service connects Christchurch and Greytown, and the Coastal Pacific trains chug north to Picton, with ferry connections across Cook Strait to the North Island.

CHRISTCHURCH
380,900
Welcome to a vibrant city in transition, coping resiliently and creatively with the aftermath of NZ’s second-biggest natural disaster (especially as tremors can still be felt regularly). Traditionally the most English of NZ cities, Christchurch is now adding a modern and innovative layer to its damaged heritage heart. Punts still glide gently down the Avon River, and the Botanic Gardens and Hagley Park are still amongst NZ’s finest public spaces, but an energetic entrepreneurial edge is also evident, harnessing the opportunities emerging from the city’s recent seismic heartache.

History
The settlement of Christchurch in 1850 was an ordered Church of England enterprise, and the fertile farming land was deliberately placed in the hands of the gentry. Christchurch was meant to be a model of class-structured England in the South Pacific, not just another scruffy colonial outpost. Churches were built rather than pubs, and wool made the elite of Christchurch wealthy. In 1862, Christchurch was incorporated as a very English city, and town planning and architecture assumed a close affinity with the ‘Mother Country’. As other migrants arrived, the city’s character slowly evolved. New industries followed, and the city forged its own aesthetic and cultural notions, often derived from the rich rural hinterland of the Canterbury Plains. From September 2010, the city’s reverie as the South Island’s cultural and economic hub was savagely torn asunder, and Christchurch was forced to look to the future with both significant challenges and significant opportunities.

Canterbury Museum (03-366 5000; www.canterburymuseum.com; Rolleston Ave; admission by donation; 9am-5pm Apr-Sep, to 5.30pm Oct-Mar) The absorbing Canterbury Museum has a wonderful collection of items of significance to NZ. Highlights include the Maori gallery, with some stunning pounamu (greenstone) pieces on display; the coracle in the Antarctic Hall used by a group shipwrecked on Disappointment Island in 1907; and a wide array of stuffed birds from the Pacific and beyond – don’t miss the statuesque Emperor penguin. Guided tours (donations appreciated) run from 3.30pm to 4.30pm on Tuesday and Thursday. Kids will enjoy the interactive displays in the Discovery Centre (admission $2). Don’t miss the gloriously kitsch Kiwiana of Fred & Myrtle’s Paua Shell House.

Arts Centre (www.artscentre.org.nz; 2 Worcester St; admission free; P) This precinct is currently closed, pending strengthening and repairs estimated to cost $240 million. An enclave of Gothic Revival buildings (built from 1877), it was the original site of Canterbury College, which later became Canterbury University. One graduate of the college was Sir Ernest Rutherford, the NZ-born physicist who first split the atom in 1917. Before the earthquakes, the Arts Centre was a popular cultural precinct comprising artists’ studios and galleries, weekend craft markets, restaurants and cinemas. One business still operating from a modern building within the Arts Centre is the excellent Canterbury Cheesemongers (p 17).

Cathedral Square (03-366 0046; www.christchurchcathedral.co.nz; admission free; 8.30am-7pm Oct-Mar, 9am-5pm Apr-Sep) Christchurch’s historic hub is Cathedral Square. At the time of writing the square was in the heart of the city’s cordoned-off CBD (Central Business District), but was planned to be reopened around April or May of 2012.

At the centre of the square, ChristChurch Cathedral was originally constructed in 1881, and is a much-loved icon of the city. The cathedral suffered devastating damage in the 22 February 2011 earthquake, bringing down the Gothic church’s 63m-high spire and leaving only the bottom half of the tower remaining. At the time of the earthquake, it was feared up to 20 people had been in the spire when it collapsed, but it was later found that no one had actually died at the site. Subsequent earthquakes in June 2011 and December 2011 destroyed the Cathedral’s prized stained-glass rose window, and the cathedral was deconsecrated in October 2011.

At the time of writing, the future of the cathedral was uncertain, and no decision had been made on its demolition or rebuild. See www.christchurchcathedral.co.nz for the latest information. The draft plan to rebuild Christchurch recommends that Cathedral Square be transformed into a park.

Other heritage buildings around Cathedral Square were also badly damaged, but one modern landmark was unscathed following the earthquakes. Designed by Neil Dawson, the 18m-high metal sculpture Chalice was erected in 2001 to commemorate the new millennium.

International Antarctic Centre (03-353 7798, 0508 736 4846; www.iceberg.co.nz; 38 Orchard Rd; adult/child/family from $35/20/95, Penguin Backstage Pass adult/child/family $25/15/80; 9am-5.30pm; P; airport bus) The International Antarctic Centre is part of a huge complex built for the admin-
THE CHRISTCHURCH EARTHQUAKES

Christchurch’s seismic nightmare began at 4.35am on 4 September 2010. Centered 40km west of the city, a 40-second, 7.1-magnitude earthquake jolted Cantabrians from their sleep, and caused widespread damage to older buildings in the central city. Close to the quake’s epicentre in rural Darfield, huge gashes erupted amid grassy pastures, and the South Island’s main railway line was bent and buckled. Because the tremor struck in the early hours of the morning, there were no fatalities, and many Christchurch residents really felt the city had dodged a bullet.

Fast forward to 12.51pm on 22 February 2011, when central Christchurch was busy with shoppers and office and retail workers enjoying their lunch break. This time the 6.8-magnitude quake was much closer, centred just 10km southeast of the city and only 5km deep. The tremor was significantly more extreme, and many locals report being flung violently and almost vertically into the air. The peak ground acceleration (PGA) exceeded 1.8, almost twice the acceleration of gravity.

When the dust settled after 24 traumatic seconds, NZ’s second-largest city had changed forever. The towering spire of the iconic Christ Church Cathedral lay in ruins; walls and verandahs had cascaded down on the city’s central retail hub; and two multi-storey buildings had pancaked, causing scores of deaths. Around half of the quake’s total of 181 deaths (across 20 nationalities) occurred in the Canterbury TV building, including many international students at a language school. Elsewhere in the city, the historic port town of Lyttelton was badly damaged; roads and bridges were crumpled by nature’s fury; and residential suburbs in the east were inundated by tonnes of oozing, silty liquefaction rising from the ground.

After 22 February, the resilience and bravery of Cantabrians quickly became evident. From the region’s rural heartland, the ‘Farmy Army’ descended on the city, armed with shovels and food hampers. Social media mobilised 10,000 students, and the Student Volunteer Army became a vital force for residential clean-ups in the city’s beleaguered eastern suburbs. Heartfelt aid and support arrived from across NZ’s close-knit population of just 4.4 million, and seven other nations sent specialised urban-search-and-rescue teams.

Twelve months after the events of February 2011, the city’s population was still bravely coping with their lives, besieged by thousands of aftershocks. Most tremors were small and there were no fatalities or injuries after February 2011, but significant jolts were recorded in June 2011 and December 2011. At the time of writing, earthquake activity was reported to be moving further east into the Pacific Ocean, and peak ground acceleration was decreasing.

The impact of a warm summer’s day in early 2011 will take longer than a generation to resolve. Around a quarter of the buildings within the city’s famed four avenues need to be demolished. Entire streets and family neighbourhoods in the eastern suburbs will be abandoned, and Christchurch’s heritage architecture is irrevocably damaged. The cost to repair and rebuild the city could exceed NZ$30 billion, making it history’s third most costly natural disaster.

In December 2011, the influential United States magazine Foreign Policy nominated Christchurch one of the urban centres of the 21st century, opining that the ‘massive rebuilding effort is a unique opportunity to rethink urban form.’ Draft plans for the city’s rebuild over 20 years include a compact, low-rise city centre, neighbourhood green spaces and parks and cycleways along the Avon River. Coupled with the endurance and energy of the people of Christchurch, the city’s future promises to be both interesting and innovative.
treme Pass (adult/child/family $65/35/165) includes unlimited rides on the Hägglund outdoor adventure course. An optional extra is the Penguin Backstage Pass, which takes visitors behind the scenes of the Penguin Encounter. Transport options include the City Flyer (p 21) airport bus – it’s just a short walk from the main terminal – or the free Penguin Express shuttle that departs from outside the Canterbury Museum.

**Tramway**
(03-366 7830; www.tram.co.nz) Prior to the February 2011 earthquake, historic trams operated on a 2.5km inner-city loop, taking in local attractions and shopping areas. At the time of writing the tramway was not operating because the city’s CBD was closed. Check the website for an update.

**Orana Wildlife Park**
(www.oranawildlifepark.co.nz; McLeans Island Rd; adult/child $25/8; 10am-5pm) Orana has an excellent, walk-through native-bird aviary, a nocturnal kiwi house, and a reptile exhibit featuring the wrinkly tuatara. Most of the grounds are devoted to Africana, including lions, rhinos, giraffes, zebras, lemurs, oryx and cheetahs. Guided walks start at
10.40am daily, taking in feeding time for the Sumatra tigers; another 2.30pm departure visits the lion enclosure. Check the website for feeding times and other optional Orana experiences for more personal interactions with some of the animals. Phone 03-379 1699 for shuttle transport to Orana.

**Willowbank Wildlife Reserve**

(www.willowbank.co.nz; 60 Hussey Rd; adult/child/family $25/10/65; ☄9.30am-dusk; ☐) About 6km north of the city, Willowbank is another good animal reserve, focusing on native NZ animals and hands-on enclosures with alpacas, wallabies and deer. Tours are held several times a day, and Willowbank’s escorted after-dark tours are a good opportunity to see a kiwi. Phone 03-359 6226 or ask at the i-SITE about free shuttle transport to Willowbank.

**Gondola**

(www.gondola.co.nz; 10 Bridle Path Rd; return adult/child/family $24/10/59; ☄10am-9pm; ☐; ☑Lyttelton 28) At the time of writing, this attraction was closed following the 2011 earthquakes, but was planned to reopen by September 2012. Check the website for the latest information. Before the quakes, the gondola whisked visitors from the Heathcote Valley terminal to the cafe-restaurant complex on Mt Cavendish (500m) in 10 minutes. Expect great views over Lyttelton Harbour and towards the Southern Alps.

**Activities**

Christchurch’s most popular activities are gentler than the adrenaline-fuelled pursuits of Queenstown and Wanaka: the city is better suited to punting down the Avon River, cycling through the easy terrain of Hagley Park or negotiating the walking trails at Lyttelton Harbour. The closest beaches to the city are Waimairi, North Beach, New Brighton and South Brighton; busses 5, 49 and 60 head here. Sumner, to the city’s southeast, is another popular beach, with good restaurants (take bus 3), while further east at Taylors Mistake are some good surfing breaks. Several skiing areas lie within a two-hour drive of Christchurch. Other active options accessible from Christchurch include cruising on Akaroa Harbour, rafting on the Rangitata River, tandem skydiving, hot-air ballooning, jetboating the Waimakariri River and horse trekking. Inquire at the i-SITE (p20).

The i-SITE also has information on walks around Christchurch and in the Port Hills. Some of the following popular walks were closed at the time of writing due to rock falls and instability following the earthquakes, so it’s vital to check the current situation at the i-SITE before setting off. Also search www.ccc.govt.nz with the keywords ‘Port Hills’ for the current status of all of the following tracks.

For great views of the city, take the walkway from the **Sign of the Takahe** on Dyers

**MAORI NZ: CHRISTCHURCH & CANTERBURY**

Only 5% of NZ’s Maori live on the South Island. The south was settled a few hundred years later than the north, with significant numbers coming south only after land became scarcer on the North Island. Before that, Maori mostly travelled to the south in search of moa, fish and West Coast pounamu (greenstone).

The major iwi (tribe) of the South Island is **Ngai Tahu** (www.ngaitahu.iwi.nz), ironically now one of the country’s wealthiest as it’s much richer in land and natural resources (per person) than the North Island tribes. In Christchurch, as in other cities, there are urban Maori of many other iwi as well.

**Ko Tane** (☎03-359 6226; www.kotane.co.nz; 60 Hussey Rd; dancing-tour-dinner package adult/child $110/54; ☄5.30pm Mon & Thu-Sat) at the Willowbank Wildlife Reserve (p6) features traditional dancing, including the haka and the poi dance.

If you’re feeling creative, the Bone Dude (p7), John Fraser, trains visitors to do their own bone carving at his studio in Christchurch.

You’ll unearth Maori artefacts at Christchurch’s Canterbury Museum (p3) and at the Akaroa Museum (p24) and the Maori & Colonial Museum (p24) in Okains Bay on the Banks Peninsula.

Further north in Timaru, the Te Ana Maori Rock Art Centre (p36) presents the fascinating story of NZ’s indigenous rock art, and also arranges tours to see the centuries-old work in situ.
Pass Rd. The various ‘Sign of the...’ places in this area were originally roadhouses built during the Depression as rest stops. This walk leads up to the Sign of the Kiwi through Victoria Park and then along Sum- mit Rd to Scotts Reserve, with several lookout points along the way.

You can walk to Lyttelton on the Bridle Path (1½ hours), which starts at Heathcote Valley (take bus 28). The Godley Head Walkway (two hours return) begins at Taylors Mistake, crossing and recrossing Summit Rd, and offers beautiful views on a clear day.

The Crater Rim Walkway (nine hours) around Lyttelton Harbour goes some 20km from Evans Pass to the Ahuriri Scenic Reserve. From the gondola terminal on Mt Cavendish, walk to Cavendish Bluff Lookout (30 minutes return) or the Pioneer Women’s Memorial (one hour return).

There's also an excellent cafe, which is a great spot for brunch or lunch. Kayaks and rowboats can be rented for independent Avon River exploration.

At the time of writing, Christchurch’s CBD was closed following earthquake damage, and accommodation was focused in and around the city’s inner suburbs. Several international hotels within the CBD were demolished after the earthquake, but the Novotel (www.novotel.com) and Ibis (www.ibishotel.com) hotels are potentially to reopen once the CBD cordon is lifted; at the time of writing the Rendezvous (www.rendezvoushotels.com) hotel was planning to
reopen on 1 March 2012. Check the hotel websites and www.cera.govt.nz for the status of Christchurch's CBD.

Motels are clustered around Bealey Ave and Papanui Rd, north of the centre, and Riccarton Rd, west of town beyond Hagley Park. Many inner-city hostels closed after the earthquake, and most open hostels are now to the east of the CBD or in Addington.

Booking ahead for accommodation is recommended as motels and hostels in the city are in high demand for tradespeople working on the city’s rebuild.

### Eating
Following the February 2011 earthquake, many cafes and restaurants were damaged, or left shuttered behind the cordon around the city’s CBD. The CBD was scheduled to reopen around April or May 2012, and the area will again become a focus for dining out. However, for this edition we have only included restaurants and cafes that were open at the time of writing; check www.christchurchnz.com for the latest updates. Bookings are recommended for dinner.

Key dining precincts are along Victoria St to the immediate northwest of the CBD. South of Moorhouse Ave, Addington and Sydenham have become hubs for new post-earthquake eateries.

To the west and north respectively of the CBD, Riccarton and Merivale are dotted with cafes and restaurants, and the beachside suburb of Sumner also features great eating (see boxed text, p15). To the south-east, Lyttelton (p22) is again emerging as one Christchurch’s best areas for eating and drinking.
SEASIDE AT SUMNER

Just 12km southeast of Christchurch by bus 3, the beachy suburb of Sumner is a relaxing place to stay. Commute to central Christchurch for sightseeing and return to Sumner for good restaurants and an arthouse cinema at night.

**Le Petit Hotel** ([03-326 6675; www.lepetithotel.co.nz; 16 Marriner St; d $135; 🌟])
Relaxed coffee, croissant breakfasts and Kara the friendly Scottish terrier are among the highlights at this intimate, French-themed boutique hotel. Factor in the friendly owners, the close proximity to Sumner beach and some of Christchurch’s best restaurants, and it’s a definite oui from us.

**Sumner Bay Motel and Apartments** ([03-326 5969, 0800 496 949; www.sumnermotel.co.nz; 26 Marriner St; d $159-185]) Studios and one- and two-bedroom units all have a balcony and courtyard, quality furniture, and Sky TV and DVD players. Bikes and surfboards can be rented.

**Almeidas Tapas Bar** ([03-326 5220; 41a Nayland St; tapas $8-12; 🌔5pm-late Wed-Sat]) Beachy Sumner meets the back streets of Barcelona at this rustic, Spanish-themed tapas bar. More than 20 different small-plate offerings include haloumi and roasted garlic in prosciutto, artichoke hearts wrapped in lemon and mint, and prawns sautéed in garlic, lime and coriander. Try and resist the urge for ‘just one more plate’ before settling on churros (Spanish donuts) for dessert.

**Bamboozle** ([03-326 7878; 6 Wakefield St; mains $25-30]) Asian fusion is the name of the game at the stylish Bamboozle, where talented chefs conjure up innovative spins on traditional flavours. Dishes include Burmese-style fish with chilli, and wasabi, salmon, and cream-cheese dumplings. Leave room for dessert with one of Christchurch’s best crème brûlées, or ginger steamed-pudding topped with a lime sauce and coffee ice cream.

**Cornershop Bistro** ([03-326 6720; www.cornershopbistro.co.nz; 32 Nayland St; brunch & lunch $12-17, dinner $23-34; 🌔5pm-late Wed-Fri & 10am-late Sat-Sun]) This is a superior, French-style bistro that never forgets it’s in a relaxed beachside suburb. Spend longer than you planned to lingering over brunch.

Note that most of the venues listed under Drinking are also good spots for lunch or dinner.

**Restaurants**

**Bodhi Tree**

*Burmese $*$

([03-377 6808; www.bodhitree.co.nz; 39 Ilam Rd; dishes $13-24; 🌔6-10pm Tue-Sun; 🌔]) Christchurch’s only Burmese restaurant is also one of the city’s best eateries. Don’t come expecting spicy flavours from neighbouring Thailand, but look forward to subtle food crafted from exceptionally fresh ingredients. Standout dishes include the *le pet thoke* (pickled tea-leaf salad) and the *ciandi thoke* (grilled eggplant). Meat and seafood also feature. Dishes are starter-sized, so drum up a group and sample lots of different flavours. Bookings are essential.

**50 Bistro**

*Restaurant $*$

([03-371 0250; www.thegeorge.com; 50 Park Tce; dinner mains $35-37]) The more casual restaurant at the George (p12) is a bustling affair, doing savvy local twists on classic bistro flavours. Try the Nifty 50 lunch menu – $29 for soup and a main dish – or sample more robust evening meals like lamb shoulder ragu with cumara (sweet potato) gnocchi. Traveling gourmands should book for Pescatore, the George’s more formal restaurant (dinner only; mains $42-50). Dishes like citrus-cured salmon or Canterbury lamb help make Pescatore a regular finalist in Cuisine magazine’s NZ Restaurant of the Year awards.

**Edesia**

*Modern NZ $*$

([03-943 2144; www.edesia.co.nz; 12 Show Pl; lunch mains $21-29 & dinner mains $28-39; 🌔11.30am-3pm Mon-Fri & 5.30pm-late Mon-Sat]) Ignore the office-park location, because Edesia’s version of fine dining is worth seeking out. The dinner menu includes innovative spins on local venison, salmon, quail, while lunch is a more informal affair, with prime Canterbury steaks and gossamer-light pasta. The wine list is one of Christchurch’s best, and after work Edesia morphs into a cosy bar for local desk jockeys.
Himalayas INDIAN $$

A stylish dining room showcases lots of sub-continental favourites, including vegetarian options like the creamy dal makhani (black lentils cooked with aromatic spices). The kadhai chicken is studded with chilli, ginger and coriander – perfect with a cold beer. Takeaways are also available.

Topkapi TURKISH $$
(www.topkapi.co.nz; 64 Manchester St; snacks & mains $8-16; ©closed Mon) Grab yourself a cushioned, low-slung bench in the tapestry-draped interior and enjoy some great Turkish food, including a wide range of meat or veg kebabs and the all-important baklava finisher. The takeaway counter also does brisk business.

Cafes

Addington Coffee Co-op CAFE $
(www.addingtoncoffee.org.nz; 297 Lincoln Rd; snacks and mains $6-20; 🍺) One of Christchurch’s biggest and most bustling cafes is also one of its best. Fair-trade coffee and a compact stall selling organic cotton T-shirts jostle for attention with delicious cakes and slices, while a cross-section of the city comes for the free wi-fi, gourmet pies and wraps and the legendary big breakfasts. An onsite launderomat completes the deal for busy travellers.

Black Betty CAFE $
(www.blackbetty.co.nz; 163a Madras St; mains $10-20; 🍺) Infused with glorious caffeine-enriched aromas from Switch Espresso’s roasting operation, Black Betty’s chic industrial warehouse is a popular destination for students from nearby CPIT. Essential culinary attractions include all-day breakfasts – try the ciabatta toast with creamy mushrooms – and excellent counter food including wraps and bagels, as well as the best of NZ wine and craft beers.

Lotus Heart VEGETARIAN $$
(www.thelotusheart.co.nz; 363 St Asaph St; mains $14-25; ©8am-4pm daily & 6-10pm Thu-Sat; 🍺) Relocated to the edge of the CBD, this organic and vegetarian eatery does curries, freshly squeezed organic juices and filled pita pockets. Try the chilli, coriander and garlic-studded eggs Akoori for breakfast, or drop by for a healthy pizza, wrap, or shared platter for lunch or dinner. Organic, vegan, and gluten-free options abound, and there’s an interesting gift shop onsite.

Beat St CAFE $
(324 Barbadoes St; snacks & mains $8-16; 🍺) Welcome to the grungy hub of Christchurch cafe-cool. Free range this and organic that combine with terrific eggy breakfasts, gourmet pies – try the feta and vege one – and robust Havana coffee. Beat Street hosts a bohemian open mic night featuring music and poetry on the third Thursday of every month from 6pm.

Honey Pot Cafe CAFE $$
(www.honeypotcafe.co.nz; 458 Colombo St; mains $20-30) One of the first CBD cafes to relocate after the earthquakes, the Honey Pot Cafe set the scene for the emergence of Sydenham as a dining destination. Great eggs Benedict for breakfast give way to spiced lamb and feta salad for lunch, and sirloin steak and chunky, hand-cut chips for dinner. Christchurch’s very own 3 Boys beer is on tap.

Coffee House CAFE $$
(290 Montrose St; breakfast & lunch mains $11-22 & dinner mains $27-32) Housed in a heritage villa complete with sunny patio, the Coffee House has a great location near the Arts Centre and the Botanic Gardens. Highlights include feta-cheese-studded Mediterranean scram-
bled eggs for breakfast and herb-marinated lamb for dinner. Emerson’s beer on tap and a concise wine list will probably see you lingering over something stronger than coffee.

Dose CAFE $  
(77 Tuam St; snacks & mains $8-18; closed Sun) Excellent coffee from the Lyttelton Coffee Company and superior counter food combine here with toasted bagels and what may just be Christchurch’s best eggs Benedict. Downstairs is almost unbearably cosy, so head upstairs for bigger tables and a quirky ambience with graffiti-style art. From Wednesday to Saturday from 4pm, Dose morphs into a yakitori bar with tasty grilled skewers and ice-cold Japanese beer.

Vic’s Cafe & Bakery CAFE $  
(www.vics.co.nz; 132 Victoria St; snacks & mains $8-20) Always busy, Vic’s attracts a wide cross-section of Christchurch folk – we even saw the city’s mayor there on our Sunday-morning visit. Pop in for a robust breakfast on the big shared tables, or grab baked goodies and still-warm artisan bread for an affordable DIY riverside picnic. Get there early (before 10am) for Vic’s world-famous-in-Christchurch nutty porridge ($10.50).

Quick Eats  
Top Choice Simo’s Deli MOROCCAN $  
(www.simos.co.nz; 3/300 Lincoln Rd; wraps $6.50-$9.50, tapas & mains $7-17) Part cafe and part deli, Simo’s in Addington is popular for its takeaway bocadillos (grilled wraps filled with a huge selection of Middle Eastern and African-inspired fillings, sauces and toppings). Other tasty offerings include small plates of grilled calamari or spicy merguez sausages, or more robust tagines (Moroccan casseroles) and beef kofta with pomegranate sauce.

Serious Sandwich SANDWICHES $  
(www.theserioussandwich.com; 363 Colombo St; sandwiches $7-10) Serious in name and serious in flavour. Concealed in Sydenham’s new Colombo shopping mall, this compact kitchen dishes up tasty gourmet sammies, including the breakfast BLAT (available from 9am) and a meatballs-on-toasted-ciabatta variant (available from around 11am). Look forward to a serious attitude to good coffee, too.

Burgers & Beers Inc BURGERS $  
(www.burgersandbeersinc.co.nz; 355 Colombo St; burgers $12.50-16) Quirkily named gourmet burgers – try the Moroccan-spiced Woolly Sahara Sand Hopper (lamb with lemon yoghurt) or the Shagged Stag (venison with tamarillo and plum chutney) – give this place a funky, laidback air. An ever-changing selection of Kiwi craft beers give you further reasons to tarry longer. Definitely worth the short hop south to Sydenham.

Self-Catering  
Canterbury Cheesemongers SANDWICHES $  
(www.canterburycheesemongers.co.nz; 301 Montreal St; sandwiches around $7; closed Sun-Mon) Pop in to buy artisan cheeses, or craft your own favourite sandwich by combining freshly-baked ficelles (thin baguettes) and ciabatta with a whole cheese shop of dairy goodies. Coffee and juices are also available to complete a good-value lunch. No Monty Python jokes, please.

Top Choice Christchurch Farmers Market FARMERS MARKET $  
(www.christchurchfarmersmarket.co.nz; 16 Kahu Rd, Riccarton House; 9am-noon Sat year-round & 4-7pm Wed Nov-Sat) Welcome to one of New Zealand’s best farmers markets, a tasty labyrinth of organic fruit and vegies, South Island cheeses and salmon, local craft beer, and ethnic treats including Colombian empanadas (savory turnovers) and Moroccan briouats (filo parcels). Other tasty stalls to track down are Posh Porridge and She Chocolat. Check out the website before you go to create your own foodie hit list.

New World Supermarket SUPERMARKET  
(South City Centre, Colombo St) Centrally located.

Drinking  
Before the earthquakes, Christchurch’s after-dark scene was focused around Oxford Tce (‘the Strip’) and the inner-city laneways around SOL (‘South of Lichfield’) Sq and Poplar St. Both precincts were closed at the time of writing, and areas like Riccarton, Addington, Victoria St and Merivale were becoming popular.

Top Choice Pomeroy’s Old Brewery Inn CRAFT BEER  
(www.pomeroysonkilmore.co.nz; 292 Kilmore St) The welcoming Pomeroy’s is the city’s hoppy hub for fans of NZ’s rapidly expanding craft beer scene. A wide range of guest taps showcase brews from around the country, often including seasonal beers and limited releases. Check the website for what’s coming
Volstead Trading Company  BAR
(www.volstead.co.nz; 55 Riccarton Rd) Volstead is a great example of what Christchurch has always done better than the rest of NZ: shabbily chic bars with a real sense of individuality. Comfy old sofas from your last student flat combine with quirky artwork, interesting beers from the Moa Brewery, and funky cocktails. If you're peckish, dig into unpretentious popcorn, nachos and toasted sandwiches.

The Brewery  CRAFT BEER
(www.casselsbrewery.co.nz; 3 Garlands Rd) Out in Woolston, it's a fair schlep from the city, but the Brewery is an essential destination for beer-loving travellers. Cassels & Sons craft all their beer using a wood-fired brew kettle, resulting in big, bold beers like their 1PA and Best Bitter. Tasting trays are available for the curious and the indecisive, and the food – including wood-fired pizzas – is top-notch, too.

Monday Room  WINE BAR
(367 Moorhouse Ave; ☀7am-late) Part cafe, part restaurant and part wine bar, the versatile Monday Room is the kind of place to hang out in any time of any day of the week. Occupying a restored heritage building, the funky interior is a background for interesting brunch and lunch options; later in the day, tapas, craft beers and cocktails take centre stage.

Cargo  BAR
(379 Lincoln Rd ) Welcome to the city of shipping containers, a popular option for business owners re-establishing after the earthquake. In the case of Addington's Cargo, there's even an astroturf putting green in the corner. The utilitarian decor won't score points for a romantic night out, but on Friday and Saturday nights it's crammed with locals celebrating the end of the working week.

Carlton Country Club  PUB
(1 Papanui Rd) Only in innovative, post-earthquake Christchurch would a bunch of shipping containers and a truck-and-trailer come together as one of the city's most popular pubs. Perched on a busy urban corner, the Carlton is a thoroughly unpretentious spot, with lots of thirsty locals tucked away in its nooks and crannies. Don't miss the rooftop deck on a sunny afternoon.

Revival  BAR
(www.revivalbar.co.nz; 94 Victoria St) More shipping-container bar tomfoolery, this time with the added attraction of its own onsite Lebanese food caravan, Revival is the hippest of Christchurch's container bars, with regular DJs and a funky lounge area dotted with a quirky collection of automotive rear ends and vintage steamer trunks. Yet another classic example of post-earthquake Christchurch drinking chic.

Wood's Mill  BAR & CAFE PRECINCT
(Woods Mill) Before the earthquakes, Christchurch had a thriving eating and drinking scene in the bricklined thoroughfares around SOL Sq and Lichfield Lane. At the time of writing these areas were still cordoned off, and the Wood's Mill precinct in Addington was being repurposed as a similar development. The area is scheduled to open in mid-2012.

Entertainment
Like the city's pub and bar scene, many of Christchurch's traditional entertainment venues were damaged by the earthquakes, and newer, more suburban areas have emerged. For live music and club listings, see www.christchurchmusic.org.nz or www.mukuna.co.nz. Look out for the Groove Guide magazine in cafes.

Both Pomery's Old Brewery Inn (p17 ) and The Brewery (p18 ) are also good live-music venues. Check their websites for listings.

Christchurch Events Village  CONCERT VENUE
(www.eventsvillage.co.nz; Hagley Park) Many of Christchurch's entertainment venues were destroyed by the earthquake, so this Hagley Park collection of temporary venues is now used for everything from concerts to live theatre.

Dux Live  LIVE MUSIC
(363 Lincoln Rd ) Dux de Lux was an excellent restaurant, microbrewery and live-music venue in Christchurch's Arts Centre, but it was forced to close after the February 2011 earthquake. The beer is still being brewed – try it at Dux de Lux in Queenstown – and in late 2011 this Addington venue opened for live music. Search Facebook for Dux de Lux for what's on.
Darkroom  
LIVE MUSIC  
(www.facebook.com/darkroom.nz; 336 St Asaphs St; 5pm-late Thu-Sun)  
Darkroom is a hip combination of live-music venue and bar, with lots of Kiwi beers, great cocktails and the moreish delights of mini-pizzas and the ‘Pie of the Week’. There’s lots of live gigs, often free – it’s a cool introduction to the renaissance of Christchurch’s music scene. Check their Facebook page for gig info.

Court Theatre

Check the website for what’s playing.

Addington Rugby League Park  
STADIUM  
(www.crfu.co.nz)  
Along with much of Christchurch’s sporting infrastructure, the earthquakes forced the closure of AMI Stadium, the traditional home of rugby and cricket in the city. After a 2011 season playing all their games away from home – and still coming in as runners-up – the Canterbury Crusaders Super 15 rugby team moved to a new ground in Addington for the 2012 season. Super-15 games are played from late February to July; from July to September, Canterbury plays in NZ’s domestic championship.

Shopping  
Since the earthquakes, shopping in Christchurch has largely been focused on the city’s suburban malls. The most convenient for visitors is the Westfield Riccarton Mall. At the time of writing, the CBD was closed, but green shoots of retail commerce were evident nearby in the new Re:Start shopping precinct. The gift shops at the Canterbury Museum (p3) and the Christchurch Art Gallery (p5) are also worth browsing.

Re:START Mall  
MALL  
(www.restart.org.nz)  
Opened in late October 2011, this colourful labyrinth of shops based in shipping containers was the first retail activity in the Christchurch CBD after the February 2011 earthquake. With a couple of decent cafes, and including two iconic Christchurch stores – Scorpio Books and Johnson’s Grocers – it’s a pleasant place to stroll. Visit Hapu for a good selection of design and crafts from local artists.

Around Christchurch

Lyttelton
POP 3100
Southeast of Christchurch are the prominent Port Hills, which slope down to the city’s port at Lyttelton Harbour. Christchurch’s first European settlers landed here in 1850 to embark on their historic trek over the hills.

Lyttelton was badly damaged during the 2010 and 2011 earthquakes, and many of the town’s heritage buildings along London St were subsequently demolished. Also fatally damaged was the neogothic Timeball Station (www.timeball.co.nz), built in 1876, and where for 58 years a huge time-ball was hoisted on a mast and then dropped at exactly 1pm Greenwich Mean Time. This allowed ships in Lyttelton Harbour to set their clocks and thereby accurately calculate longitude.

Following the earthquakes, Lyttelton has re-emerged as one of Christchurch’s most interesting and resilient communities. The town’s artsy, independent and bohemian vibe is stronger than ever, and it’s again becoming a hub for good bars, cafes and restaurants. It’s well worth catching the bus from Christchurch and getting immersed in the local scene.

From Lyttelton, ferries and boat cruises provide access to sheltered Quail Island, as well as across the water to sleepy Diamond Harbour. See www.blackcat.co.nz for details.

If you’ve got your own transport, the harbour road wends a scenic 15-minute route to pretty Governors Bay, with a couple of good spots for lunch.

The Lyttelton visitor information centre (03-328 9093; www.lytteltonharbour.info; London St; 9am-5pm Sep-May, to 4pm Jun-Aug) has accommodation and transport information.

Sights
Lyttelton is linked to Christchurch via a road tunnel, but there’s a more scenic (and 10km longer) route along the narrow Summit Rd, which has breathtaking city, hill and harbour views, as well as vistas of the Southern Alps.

Eating & Drinking

Freeman’s Dining Room RESTAURANT $$
(www.freemansdiningroom.co.nz; 47 London St; pizza $20, mains $25-35; 3pm-late Mon-Thu, from 11.30am Fri, from 9am Sat & Sun) Freeman’s does fresh pasta, top-notch pizzas and regular wine and beer specials featuring brews from Christchurch’s Cassels & Son Brewery. Grab a spot on the deck for great town and harbour views, and take in Sunday afternoon jazz concerts from 3pm. Definitely the kind of neighbourhood local you’d like in your town.

Lyttelton Coffee Company CAFE $$(www.lytteltoncoffeecompany.co.nz; 29 London St; mains $10-20) This iconic Lyttelton cafe was destroyed in the February 2011 earthquake, but at the time of writing was planning an April 2012 reopening. Check the website: hopefully you can drop by to sample some of Canterbury’s best coffee and tasty and robust brunches. Live music on Saturday afternoons was also a pre-earthquake staple.

Monster Yakitori JAPANESE $$
(03-328 9166; www.monsterbar.co.nz; 29 London St; per 2 skewers $8-12; 5pm-late Wed-Sun) Another Lyttelton classic that was working hard towards an April 2012 reopening at the time of writing. Pre-earthquake, classic cocktails and Kiwi craft beers combined with skewered and grilled yakitori goodies in a funky, anime-themed interior. Try the ebi bacon – prawns wrapped in bacon with plum wasabi. Check the website for Monster’s current status.

Fisherman’s Wharf SEAFOOD $$
(www.lytteltonwharf.co.nz; 39 Norwich Quay; snacks $7-12, mains $18-20; 11am-8pm) Part alfresco bar and part gourmet fish-and-chippery, Fisherman’s Wharf is a top spot for a cold beer and tasty seafood bar snacks and mains. Try the fish of the day – prepared any of three ways – or smaller plates like salmon with lemongrass, chilli and lime, and look forward to views of the harbour and the rugged working port.

Porthole BAR
(cnr Canterbury & London Sts) On the former site of the much-loved Volcano Cafe and
Lava Bar, Porthole is another funky reinvention of the humble shipping container. Local wines and Kiwi craft beers are served in the buzzy interior, while laidback Lyttelton folk chill on the alfresco deck. The Volcano Cafe is still involved too, serving up tasty bar snacks.

**Wunderbar**
Bar
(www.wunderbar.co.nz; 19 London St; 5pm-late Mon-Fri, 1pm-late Sat & Sun) Wunderbar is a top spot to see NZ’s more interesting acts, from raucous rock to late-night/early-morning dub. The funky decor alone is worth a trip to Lyttelton. At the time of writing, the venue was closed due to earthquake damage, but a reopening was definitely planned. Check the website or www.christchurchmusic.org.nz.

**Governor’s Bay Hotel**
Pub $$
(03-329 9433; www.governorsbayhotel.co.nz; Main Rd; mains $14-33) The Governor’s Bay Hotel serves tasty burgers, steaks and fish and chips, and more international meals like slow-cooked lamb shanks with Moroccan cous cous. Enjoy a beer on the cool verandah that’s dotted with memoirs of the hotel’s 145 years of history. Upstairs is accommodation in chic and recently refurbished rooms with shared bathrooms (doubles $100 to $150).

**She Chocolat**
Cafe $$
(03-329 9825; www.shechocolat.com; 79 Main Rd; mains $15-34) She Chocolat serves excellent brunches and lunches with an organic and new-age tinge. After ricotta-and-raisin crepes, make room for locally-made Belgian chocolates and take in the harbour views. The cafe is also open for dinner on Friday and Saturday nights; the menu includes a unique chocolate-imbued degustation menu with Pegasus Bay wine matches (per person $125). Bookings recommended.

**Farmers Market**
(www.lyttelton.net.nz; 10am-1pm Sat) Lyttelton’s foodie credentials are enhanced by the farmers market held in the local primary school on Saturdays.

### Akaroa & Banks Peninsula

Banks Peninsula and its hills were formed by two giant volcanic eruptions about 8 million years ago. Small harbours such as Le Bons, Pigeon and Little Akaloa Bays radiate out from the peninsula’s centre, giving it a cogwheel shape. The historic town of Akaroa is a highlight, as is the absurdly beautiful drive along Summit Rd around the edge of the original crater.

Akaroa means ‘Long Harbour’ in Maori and was the site of the country’s first French settlement; descendants of the original French settlers still reside here. Located 83km from Christchurch, it’s a charming town that strives to recreate the feel of a French provincial village, down to the names of its streets (Rues Lavaud, Balguerie and Jolie) and houses (Langlois-Eteveneaux). There’s also a few choice eateries.

If you’re not in a hurry, it’s definitely worth spending a few leisurely days in the excellent budget accommodations that dot the outer bays of Banks Peninsula. Most accommodation will arrange pick-up in Akaroa after you arrive from Christchurch.

#### HISTORY

James Cook sighted the peninsula in 1770. Thinking it was an island he named it after the naturalist Sir Joseph Banks. The Ngai Tahu tribe, who occupied the peninsula at the time, were attacked at the fortified Onawe pa (Maori village) by the Ngati Toa chief Te Rauparaha in 1831 and their population was dramatically reduced.

In 1838, whaling captain Jean Langlois negotiated the purchase of Banks Peninsula from local Maori and returned to France to form a trading company. With French government backing, 63 settlers headed for the peninsula in 1840, but only days before they arrived, panicked British officials sent their own warship to raise the flag at Akaroa, claiming British sovereignty under the Treaty of Waitangi. Had the settlers arrived two years earlier, the entire South Island could have become a French colony, and NZ’s future might have been quite different.

The French did settle at Akaroa, but in 1849 their land claim was sold to the New Zealand Company, and in 1850 a large group of British settlers arrived. The heavily forested land was cleared and soon farming became the peninsula’s main industry.

(03-304 7641; www.blackcat.co.nz; Main Wharf; 5 tours daily 6am-3.30pm Oct-April, 1 tour daily 11.30am May-Sep) The waters around Akaroa are home to the world’s smallest and rarest dolphin, the Hector’s dolphin, found only in NZ waters. If viewing the dolphins on a harbour cruise isn’t enough, Black Cat Cruises can also get you swimming alongside the dolphins (assuming it’s not the calving season). Trips operate year-round and carry only 10 swimmers per trip, so book ahead. Wet suits and snorkelling gear are provided, plus hot showers back on dry land. Count on a 2½-hour outing including time in and on the water, and a $59 refund if you don’t get to swim with the dolphins. Cruises have around a 98% success rate in seeing dolphins, and an 81% success rate in actually swimming with them. Costs are $139/115 per adult/child for a cruise and swim, and $72/35 per adult/child for a cruise only.

**NORTH CANTERBURY**

From Christchurch, SH1 heads north for 57km through Woodend and Amberley to Waipara. From here it continues northeast to Kaikoura, while SH7 branches due north to Hurunui, through flat farming country, to reach Culverden. About 27km from Culverden is the turn-off from SH7 to Hanmer Springs, a thermal resort. The **Alpine Pacific Triangle Touring Guide** outlines things to see and do in this region. See also www.visithurunui.co.nz.

If you’re a wine buff or foodie, look for the **North Canterbury Food & Wine Trail** touring map at the i-SITE in Christchurch. Online, see www.foodandwinetrail.co.nz.

The **Brew Moon Garden Café & Brewery** (www.brewmooncafe.co.nz; 150 Ashworths Rd; mains $15-26; 🍺) on SH75 in Amberley crafts four different beers; sample them all for $12. Our favourite is the gloriously hoppy Hophead IPA. Gourmet pizzas ($20 to $25) and meals including Akaroa salmon and steak sandwiches are also available. Coffee and New York-style baked cheesecake ($10) are other tasty options.

A few kilometres up SH1, the scenic **Waipara Valley** is home to around 20 wineries; see www.waiparawines.co.nz. Sample a pinot noir or riesling and stop for lunch at one of the spectacular vineyard restaurants. **Waipara Springs** (www.waiparasprings.co.nz; SH1), **Pegasus Bay** (www.pegasusbay.com; Stockgrove Rd; mains $27-39; ☎noon-4pm) and the Mud House (www.themudhousewinery.co.nz; SH1) are open daily for wine tasting and sales, and all have restaurant-cafes for a leisurely lunch. Local legend has it that the thermal springs are the fires of Tamatea, which fell from the sky after an eruption of Mt Ngauruhoe on the North Island; Maori call the springs Waitapu (Sacred Waters).

The hot-spring water mixes with freshwater to produce pools of varying temperatures. In addition to mineral pools, there are landscaped rock pools, a freshwater 25m lap pool, private thermal pools ($25 per half-hour) and a restaurant. Loads of fun for kids of all ages include a waterslide and the exciting Superbowl ($10). **Getting There & Away**

Hanmer Backpackers run daily shuttles between Hanmer and Christchurch (90 minutes) and also operate a convenient service to and from Kaikoura (two hours; Monday, Wednesday and Friday). Check the websites of both companies for current departure points from Christchurch.

**Lewis Pass Hwy**

At the northern end of the Southern Alps, the beautiful Lewis Pass Hwy (SH7) wiggles west from the Hanmer Springs turn-off to Lewis Pass, Maruia Springs and Springs Junction. The 907m-high Lewis Pass is not as steep or the forest as dense as Arthur’s and Haast Passes, with mainly red and silver beech and kowhai trees growing along river terraces.

The area has some interesting tramps; see the DOC pamphlet Lake Sumner & Lewis Pass ($2). Most tracks pass through beech forest with a backdrop of snowcapped mountains, lakes, and alpine tarns and rivers. The most popular tramps are around Lake Sumner in the Lake Sumner Forest Park and the St James Walkway (66km; three to five days) in the Lewis Pass National Reserve. Subalpine conditions apply, so make sure you sign the intentions books at the huts.

**Maruia Springs**

(03-523 8840; www.maruiasprings.co.nz; SH7; d $179-199, f $259; ★★) is a small, Japanese-style hot-spring resort on the banks of the Maruia River, 69km from the Hanmer turn-off, with fairly spartan accommodation, a cafe-bar and a Japanese restaurant (breakfast & dinner only). Despite the name, the cheaper Garden View rooms actually offer the best mountain views. In the thermal pools (adult/child $19/9, free for guests), water with black mineral flakes of ‘hot spring flowers’ is pumped into a gender-segregated traditional Japanese bathhouse and outdoor rock pools. It’s a magical setting during a winter snowfall, but mind the sandflies in summer. Massages (per 30/50 minutes $45/65) and private spa houses (per person for 45 minutes $25) are available.

SH7 continues to Springs Junction, where the Shenandoah Hwy (SH65) branches north to meet SH6 near Murchison, while SH7 continues west to Reefton and down to Greymouth. Springs Junction has a petrol station and cafe.
CENTRAL Canterbury

Two hours west from Christchurch on SH73 is Arthur’s Pass National Park. The trans-island crossing from Christchurch to Greymouth over Arthur’s Pass is covered by buses and the TranzAlpine train.

From Christchurch the road traverses the Canterbury Plains and then escalates rapidly into the Porters and Craigieburn skiing areas before following the Waimakariri and Bealey Rivers and Lakes Pearson and Grasmere to Arthur’s Pass. Southwest of Christchurch (reached by SH73 and SH77) is the Mt Hutt ski resort and Methven.

Craigieburn Forest Park

Accessed from SH73, this forest park is 110km northwest of Christchurch and 42km south of Arthur’s Pass. The park has many walking tracks, with longer tramps possible in the valleys west of the Craigieburn Range; see the DOC pamphlet Craigieburn Forest Park: Day Walks ($1). The surrounding country is also suitable for skiing and rock climbing. Dominating the vegetation is beech, tussock, and turpentine scrub, and even a few patches of South Island edelweiss (Leucogenes grandiceps).

Craigieburn has a rise of 503m so is one of NZ’s best skiing areas, with wild-country slopes that suit advanced skiers.

Near Broken River Bridge is the Cave Stream Scenic Reserve, with a 594m-long cave with a small waterfall at one end. Take all the necessary precautions (two light sources per person etc) if you’re doing the one-hour walk in waist-deep cold water through the pitch-black cave. For details, get the DOC brochure Cave Stream Scenic Reserve (50c). The reserve is in the Castle Hill area, with prominent limestone outcrops loved by rock climbers and boulderers. Scenes from The Chronicles of Narnia: The Lion, the Witch and the Wardrobe were filmed in the area.

Arthur’s Pass

POP 62

Arthur’s Pass village is 4km from the pass of the same name and is NZ’s highest-altitude settlement. The 924m pass was used by Maori to reach Westland, but its European discovery was made by Arthur Dobson in 1864, when the Westland gold rush created the need for a crossing over the Southern
Alps from Christchurch. A coach road was completed within a year, but later on the coal and timber trade demanded a railway, duly completed in 1923. The town is a handy base for tramps, climbs, views and wintertime skiing in Arthur’s Pass National Park. Online see www.arthurspass.com. For specific information on weather conditions see www.softrock.co.nz.

Sights & Activities
Near DOC is the small interfaith Chapel, with wonderful views.

Day tramps offer 360-degree views of snow-capped peaks, many of them over 2000m; the highest is Mt Murchison (2400m). There are huts on the tramping tracks and several areas suitable for camping. Tramping is best in the drier months (January to April). The leaflet Walks in Arthur’s Pass National Park (82) details walks to scenic places including Devils Punchbowl Waterfall (one hour return), Temple Basin (three hours return), and the Bealey Spur track (four to six hours return) with expansive views of the Waimakariri River valley and surrounding mountains. The pleasant Dobson Nature Walk (30 minutes return) is best from November to February when the alpine flowers are blooming. Recommended for fit trampers is the Avalanche Peak track (six to eight hours return). Longer tramps with superb alpine backdrops include the Goat Pass Track (two days), and the longer and more difficult Harman Pass and Harpers Pass Tracks. These tracks require previous tramping experience as flooding can make the rivers dangerous and the weather is extremely changeable; ask DOC first.

Sleeping & Eating

SOUTH CANTERBURY

SH1 heading south from Christchurch along the coast passes through the port city of Timaru on its way to Dunedin, and carries a lot of traffic. The inland route along SH8 is also busy, but showcases the stunning landscapes of the Mackenzie Country. Studded with the intense blue lakes of Tekapo and Ohau, SH80 veers off at Twizel in the Mackenzie Country to hug Lake Pukaki all the way to the magnificent heights of Aoraki/Mt Cook National Park.

Timaru

POP 26,750
The port city of Timaru is a handy stopping-off point halfway between Christchurch and Dunedin. Many travellers prefer to kick on 85km further south to the smaller, more charming Oamaru, but a few good restaurants and good-value motels means Timaru is worthy of a spot of travellers’ R&R. The recently-opened Te Ana Maori Rock Art Centre is also of interest for travellers seeking to understand NZ’s indigenous Maori heritage.

The town’s name comes from the Maori name Te Maru, meaning the ‘Place of Shelter’. No permanent settlement existed here until 1839, when the Weller brothers from Sydney set up a whaling station. The Caroline, a sailing ship that picked up whale oil, gave the picturesque bay its name.

Inland & Mackenzie Country

Heading to Queenstown and the southern lakes from Christchurch means a turn off SH1 onto SH79, a scenic route towards the high country and the Aoraki/Mt Cook National Park’s eastern foothills. The road passes through Geraldine and Fairlie before joining SH8, which heads over Burkes Pass to the blue intensity of Lake Tekapo.

The expansive high ground from which the scenic peaks of Aoraki/Mt Cook National Park escalate is known as Mackenzie Country, after the legendary James ‘Jock’ Mackenzie, who ran his stolen flocks in this then-uninhabited region in the 1840s. When he was finally caught, other settlers realised the potential of the land and followed in his footsteps. The first people to traverse the Mackenzie were the Maori, trekking from Banks Peninsula to Otago hundreds of years ago.

**TWIZEL**

POP 1015

It wasn’t long ago that New Zealanders maligned the town of Twizel, just south of Lake Pukaki. The town was built in 1968 to service construction of the nearby hydroelectric power station, and was due to be abandoned in 1984 when the construction project was completed. Now the town’s residents are having the last laugh as new lakeside subdivisions are built to take advantage of the area’s relaxed lakes-and-mountains lifestyle. Accommodation and eating options are bet-
ter value in Twizel compared to Mt Cook, but you will be forgoing waking up right in the mountains.

The Twizel i-SITE (03-435 0066; www.twizel.info; Twizel Events Centre; 9am-6pm Mon-Fri & noon-3pm Sat-Sun) is right in town, and there’s an ATM in the main shopping area. Note there’s no ATM at Mt Cook or Lake Tekapo. Self-drive travellers should also fill up with petrol in Twizel before heading to Mt Cook.

**BLUE CRUSH**

The blazing turquoise colour of Lake Pukaki, a characteristic it shares with other regional bodies of water such as Lake Tekapo, is due to ‘rock flour’ (sediment) in the water. This so-called flour was created when the lake’s basin was gouged out by a stony-bottomed glacier moving across the land’s surface, with the rock-on-rock action grinding out fine particles that ended up being suspended in the glacial melt water. This sediment gives the water a milky quality and refracts the sunlight beaming down, hence the brilliant colour.

Aoraki/Mt Cook National Park
The spectacular 700-sq-km Aoraki/Mt Cook National Park (www.doc.govt.nz/parks-and-recreation/national-parks/aoraki-mt-cook), along with Fiordland, Aspiring and Westland National Parks, incorporates the Southwest New Zealand (Te Wahipounamu) World Heritage Area, which extends from Westland’s Cook River down to Fiordland. Fenced in by the Southern Alps and the Two Thumb, Liebig and Ben Ohau Ranges, more than one-third of the park has a blanket of permanent snow and glacial ice.

Of the 27 NZ mountains over 3050m, 22 are in this park. The highest is the mighty Mt Cook – at 3755m it’s the tallest peak in Australasia. Known to Maori as Aoraki (Cloud Piercer), after an ancestral deity in Maori mythology, the mountain was named after James Cook by Captain Stokes of the survey ship HMS Acheron.

The Mt Cook region has always been the focus of climbing in NZ. On 2 March 1882, William Spotswood Green and two Swiss alpinists failed to reach the summit of Cook after an epic 62-hour ascent. But two years later a trio of local climbers – Tom Fyfe, George Graham and Jack Clarke – were spurred into action by the news that two well-known European alpinists were coming to attempt Cook, and set off to climb it before the visitors. On Christmas Day 1884 they ascended the Hooker Glacier and north ridge, a brilliant climb in those days, and stood on the summit.

In 1913, Australian climber Freda du Faur became the first woman to reach the summit. In 1948, Edmund Hillary’s party, along with Tenzing Norgay, climbed the south
ridge; Hillary went on to become the first to reach the summit of Mt Everest. Since then, most of the daunting face routes have been climbed. Among the region’s many great peaks are Sefton, Tasman, Silberhorn, Malte Brun, La Perouse, Hicks, De la Beche, Douglas and the Minarets. Many can be ascended from Westland National Park, and there are climbers’ huts on both sides of the divide.

Mt Cook is a wonderful sight, assuming there’s no cloud in the way. Most visitors arrive on tour buses, stop at the Hermitage hotel for photos, and then zoom off back down SH80. Hang around to soak up this awesome peak and the surrounding landscape and to try the excellent short walks. On the trails, look for the thar, a goatlike creature and excellent climber; the chamois, smaller and of lighter build than the thar; and red deer. Summertime brings the large mountain buttercup (the Mt Cook lily), and mountain daisies, gentians and edelweiss.

Like the Fox and Franz Josef Glaciers on the other side of the divide, the Mt Cook glaciers move fast. The **Alpine Memorial**, near the old Hermitage site on the Hooker Valley Track, commemorating one of the mountain’s first climbing disasters. Three climbers were killed by an avalanche in 1914; only one of the bodies was recovered at the time, but 12 years later a second one melted out of the bottom of the Hochstetter Icefall, 2000m below where the party was buried, illustrating the glaciers’ speed.

**Hermitage**

(www.hermitage.co.nz) With fantastic views of Mt Cook, this is arguably the most famous hotel in NZ. Originally constructed in 1884, when the trip from Christchurch took several days, the first hotel was destroyed in a flash flood in 1913. You can still see the foundations in Hooker Valley, 2km from the current Hermitage. Rebuilt, it survived until 1957, when it burnt down. The present Hermitage was built on the same site and a new wing was added for the new millennium.

**Sir Edmund Hillary Alpine Centre**

(www.hermitage.co.nz; The Hermitage; one movie adult/child $18/8, all six movies adult/child/family $27/13.50/54; 7.30am-8.30pm) The new Sir Edmund Hillary Alpine Centre opened in late 2007 – just three weeks before the January 2008 death of the man often regarded as the greatest New Zealander of all time. His commentary tracks were recorded only a few months before he died. The centre includes a full-dome digital planetarium showing four different digital presentations, and a cinema screen showing the Mt Cook Magic 3D movie and a fascinating 75-minute documentary about Sir Ed’s conquest of Mt Everest. Another documentary, screened in the museum on a continual basis, reflects the charity and development work that Sir Edmund Hillary achieved in the decades after his conquest of Mt Everest in 1953. Admission to the museum by itself is free.

**Big Sky**

(www.hermitage.co.nz; adult/child $50/25; nightly weather permitting) NZ’s southern sky is introduced by a 30-minute presentation in the Alpine Centre’s digital planetarium, before participants venture outside to study the celestial real deal with telescopes, binoculars, and an astronomy guide.

**Activities**

**Tramping**

Various easy walks from the Hermitage area are outlined in the brochures available from DOC. Always be prepared for sudden weather changes. Longer walks are only recommended for those with mountaineering experience, as conditions at higher altitudes are severe and the tracks dangerous. Many people have died here, and most walkers shouldn’t consider tackling these trails. If you intend on staying at any of the park’s huts, it’s essential to register your intentions at the DOC visitor centre and pay the hut fee.

**Mountaineering**

For the experienced, there’s unlimited scope for climbing, but regardless of your skills, take every precaution – more than 200 people have died in climbing accidents in the park. The bleak In Memoriam book in the visitor information centre begins with the first death on Mt Cook in 1907, and since then more than 70 climbers have died on the peak.

Highly changeable weather is typical around here; Mt Cook is only 44km from the coast and weather conditions rolling in from the Tasman Sea can mean sudden storms. Unless you’re experienced in such conditions, don’t climb anywhere without a guide.

Check with the park rangers before attempting any climb and always heed their
advice. Fill out a climbers-intentions card before starting out – so rangers can check on you if you’re overdue coming out – and sign out again when you return.

**Kea Point** TRAMPING

The trail to Kea Point (two hours return from the village) is lined with native plant life and ends at a platform with excellent views of Mt Cook, the Hooker Valley and the ice faces of Mt Sefton and the Footstool. If you’re lucky, you might share your walk with a few inquisitive kea.

**Sealy Tarns** TRAMPING

The walk to Sealy Tarns (three to four hours return) branches off the Kea Point Track and continues up the ridge to Mueller Hut (dm $36), a comfortable 30-bunk hut with gas and cooking facilities.

**Hooker Valley** TRAMPING

The walk up the Hooker Valley (three hours return) crosses a couple of swing bridges to Stocking Stream and the terminus of the Hooker Glacier. After the second swing bridge, Mt Cook totally dominates the valley.

**Tasman Glacier View Track** TRAMPING

The Tasman Valley walks are popular for their views of the Tasman Glacier. Walks start at the end of the unsealed Tasman Valley Rd, 8km from the village.
