GreenDex

The following attractions, activities, organisations and places to stay have been selected by Lonely Planet authors because they meet our criteria for sustainable tourism. They range from the discernibly 'green', in the sense of sound environmental practices, to community-based programs. Some places are run locally and profits remain in the community. We've included ecolodges and ecotours, which allow communities to make a living from the environment. Activities whose ecological footprint is minimal and organisations that promote good environmental policies are also listed.

We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, contact us at www.lonelyplanet.com/contact and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
