GOING GREEN

The following sights, accommodation options, restaurants and courses have been selected because they meet our criteria for sustainable tourism. While many restaurants in Rome serve seasonal, locally sourced produce, we've highlighted those that choose to go that extra mile and are accredited by the Italian Slow Food movement. We've also included Rome's colourful produce markets. Accommodation options make it if they show a real commitment to recycling or energy conservation, while attractions are listed if they are Unesco-listed World Heritage sites.

We want to keep developing our sustainable travel content, so if you think we've left someone or something out, contact us at www.lonelyplanet.com/feedback and set us straight for next time.

For more information about sustainable travel, check out our website at www.lonelyplanet.com/responsibletravel.
