## GREENDEX

It seems like everyone's going 'green' these days, but how can you know which businesses are actually ecofriendly and which are simply jumping on the eco/sustainable bandwagon?

The following attractions, tours, bars, shops, festivals, courses, restaurants and accommodation choices have all been selected by Lonely Planet authors because they meet our criteria for sustainable tourism. While many restaurants in Italy serve seasonal, locally sourced produce, we've highlighted those that chose to go the extra mile and are accredited by the Slow Food Movement. We've also highlighted farmers' markets and the local producers themselves. In addition, we've covered accommodation that we deem to be environmentally friendly, for example for their commitment to recycling or energy conservation. Attractions are listed because they're involved in conservation or environmental education, have been given an ecological award or are World Heritage-listed by Unesco.

We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, contact us at [www.lonelyplanet.com/contact](http://www.lonelyplanet.com/contact) and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see [www.lonelyplanet.com/responsibletravel](http://www.lonelyplanet.com/responsibletravel).

### Florence & Central Italy

#### accommodation
