Welcome to some of the highest places on Earth! We'll be visiting some of these mountains on our journey — it's time to learn more about them. Can you match the facts up to the mountains?

A) I am the world's highest mountain.

D) Elephants, monkeys and buffalo live in forests on my lower slopes.

F) I am the highest peak in Europe.

C) I am an active volcano.

E) I sit in the longest above-ground mountain range.

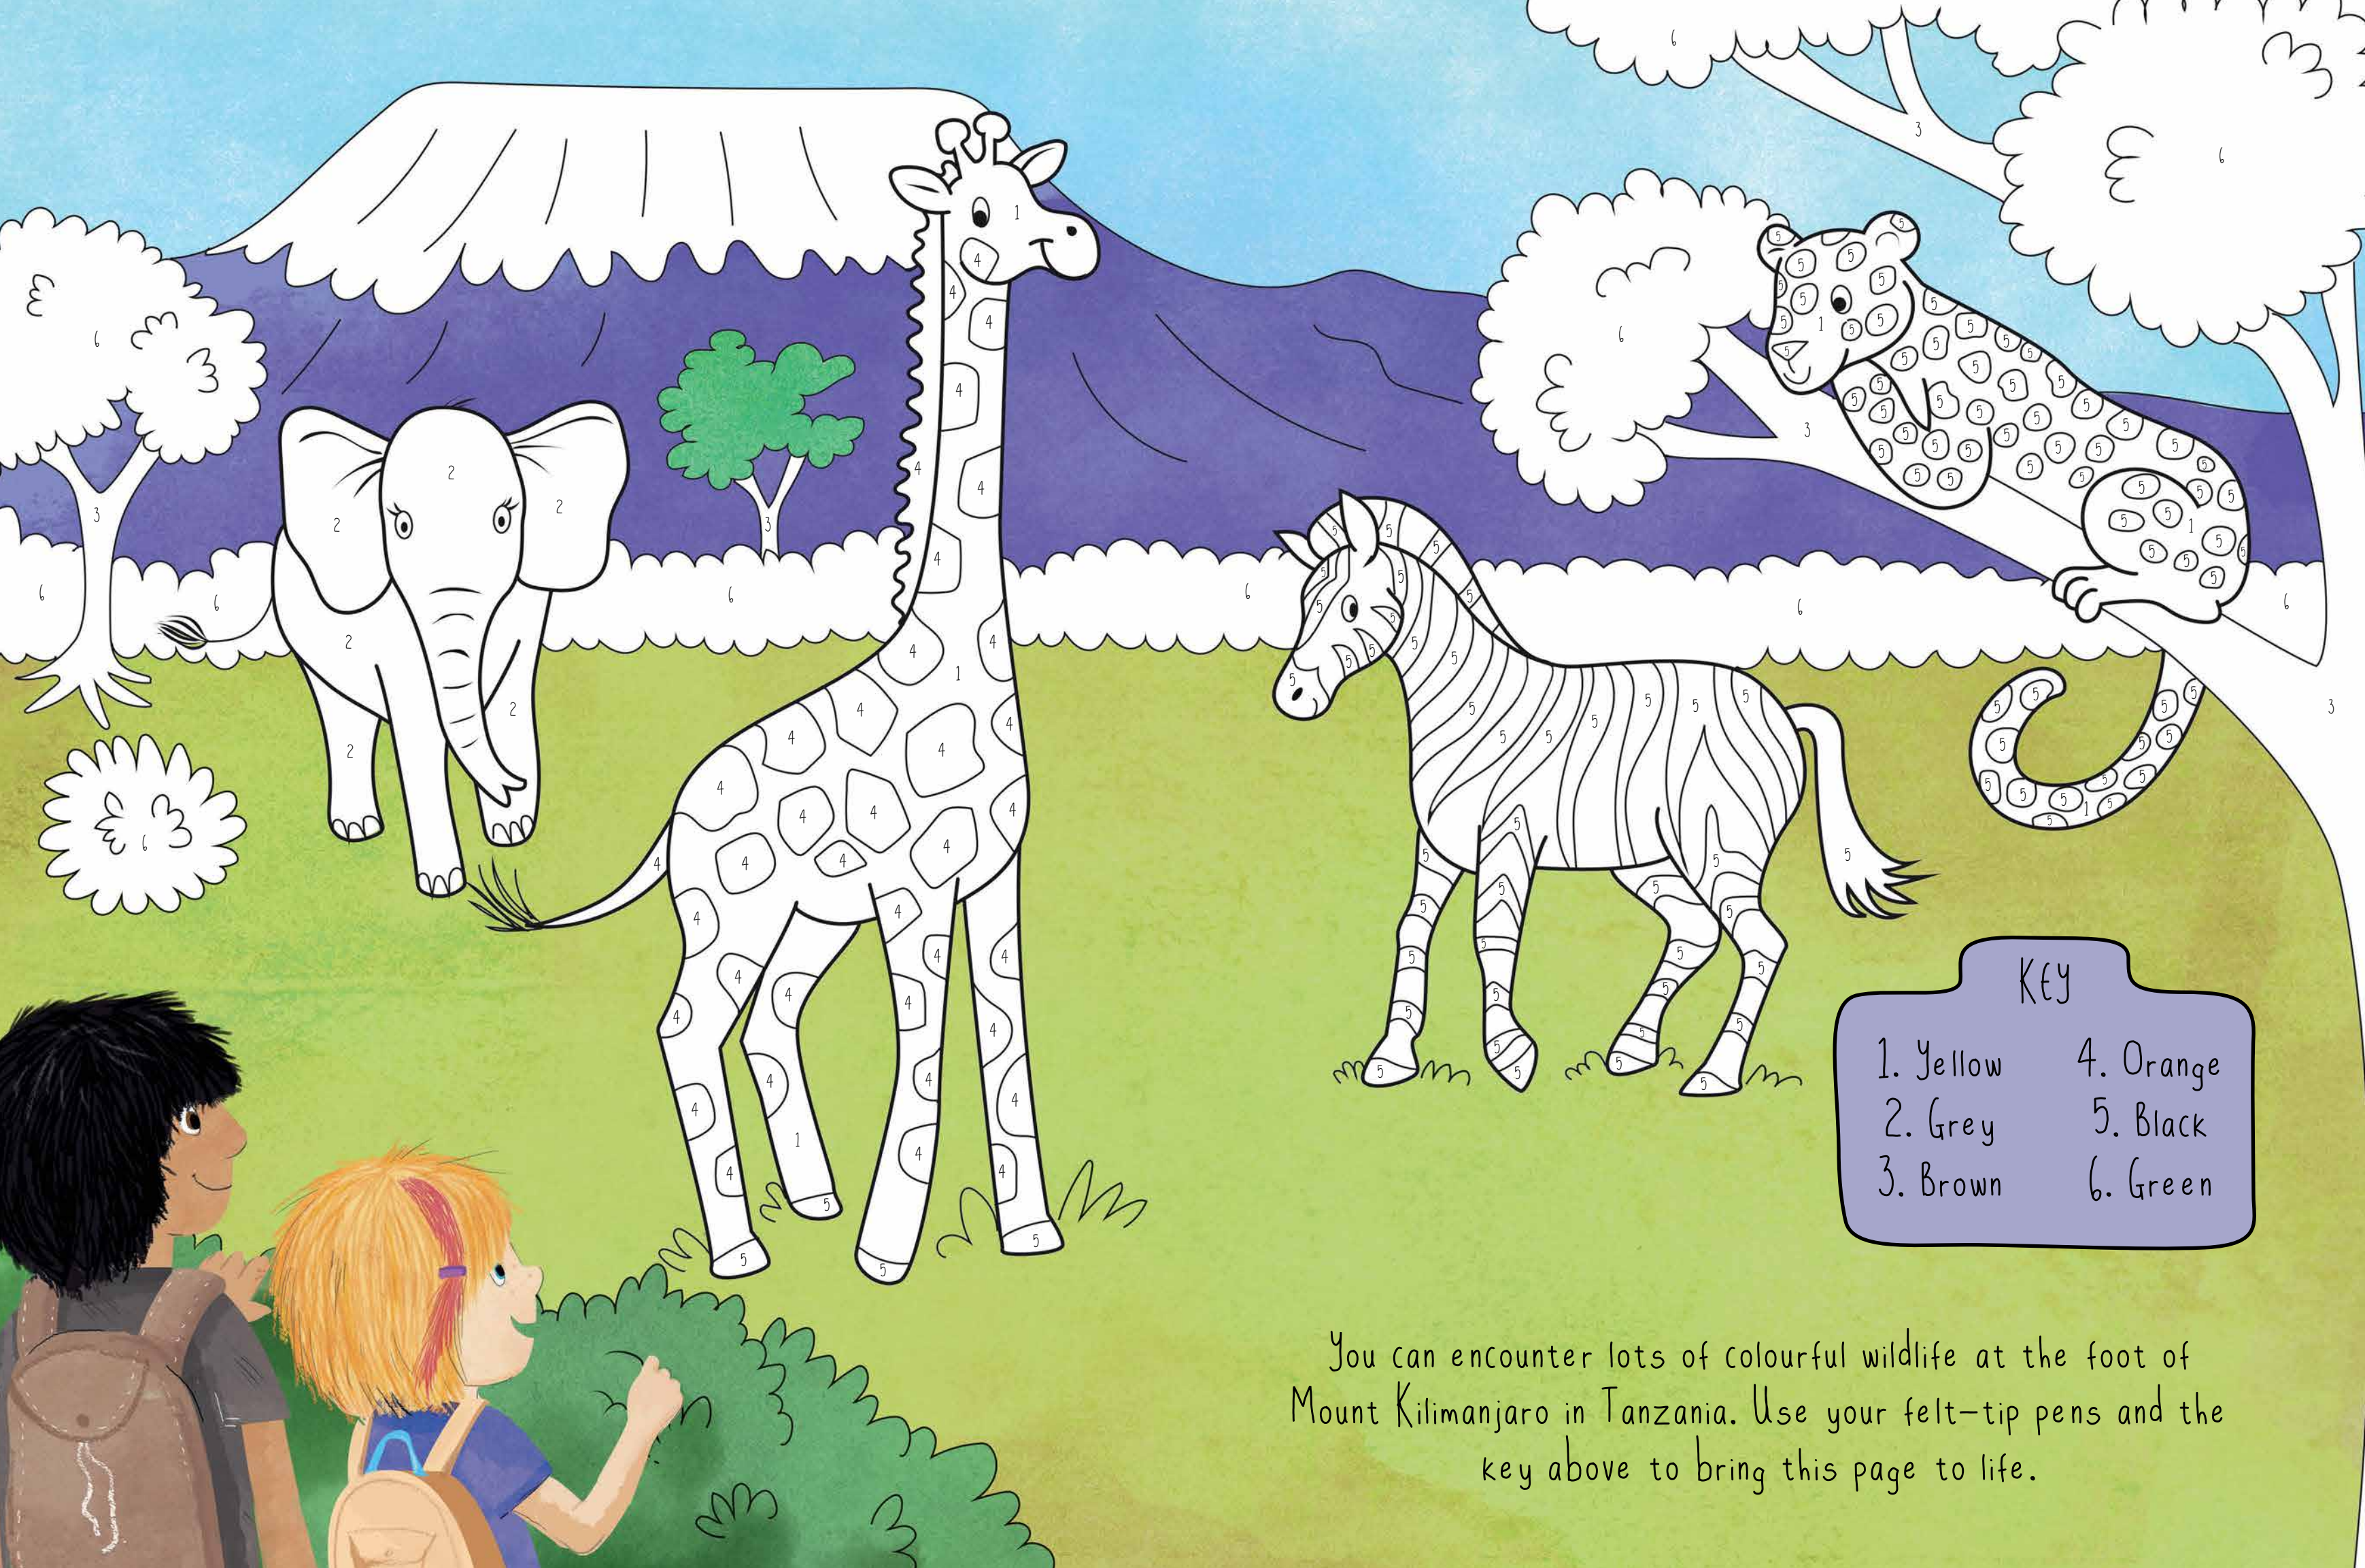

B) My name means 'high one' to Native Americans.

Marco and Amelia are in Morocco trying to navigate a route through the sandy Atlas Mountain roads. Help them find their way to the top!
