

CAN YOU
HELP?

ARRIVALS

Disaster! Famous photographer and friend of Lonely Planet, Geronimo Keats, has just returned to London from a round-the-world expedition. But it looks like the locks on his luggage have broken and he has lost most of his kit along the way!

GERONIMO

Lonely Planet? I've got
a serious problem.
Can you help?

Luckily, he knows just
who to call... two young
explorers who are perfect
for the job. Lonely
Planet to the rescue!

AT LONELY PLANET HQ

Amelia and Marco have been called
into HQ to help solve this international
mystery. But they'll need your help!

LONELY PLANET BOSS

Marco, head to the airport and get on
the next flight to Oslo. We need you to find
Geronimo's belongings before someone else
does! Amelia, stay at HQ with Geronimo,
and help Marco retrace Geronimo's steps.
Use your tablets to keep in touch.

AMELIA

Got it, boss!

MARCO

Don't worry, Geronimo.
You can count on us! We'll
have your lost gear back
with you in no time.

GERONIMO

Thank you, Marco!

SWAMP SCRAMBLE

MARCO

Hi Kendall! Geronimo Keats thinks he may have lost something while he was with you in the Everglades. Can you help me track it down?

KENDALL

Great to meet you! Geronimo and I photographed alligators together while we were in the Everglades. Let's go and see what we can find!

The Everglades National Park is a tropical wetland that covers 6,241 square kilometres in southern Florida. It was made a national park in 1947 and is a unique ecosystem that is home to 14 endangered species - and lots of alligators!

START HERE!

HIDDEN GEM

Airboats are perfect for navigating the shallow Everglades because of their flat bottoms. They are propelled by a huge fan that sits above the water.

Help Marco and Kendall weave their airboat around the chomping alligators to find Geronimo's headphones.

GRAND CANYON CAPER

MARCO

Could you take me to any other places you went with Geronimo?

KENDALL

No problem. What a great excuse to do it all again! Let's head to the Grand Canyon.

The Grand Canyon in Arizona, USA, was carved out by the Colorado River. It is 446 kilometres long, up to 1.8 kilometres deep and up to 29 kilometres wide.

**END
HERE!**

Help Marco and Kendall hike through the Grand Canyon to find what Geronimo lost on his last trip.

START HERE!

HIDDEN GEM

The limestone at the rim of the canyon is around 230 million years old. The layers of rock get steadily older until you reach the bottom where the schist rock is over two billion years old.

Las Vegas, in the US state of Nevada, has replicas of all kinds of tourist attractions from around the world. The only thing it doesn't have is rainfall. Las Vegas is in the middle of the Mojave Desert and only gets ten centimetres of rain a year.

AMELIA: Hi Marco! We've had a call from the Pink Flamingo Hotel in Las Vegas, Nevada. A tourist found Geronimo's wallet by the pool and handed it in. Do you think you could go pick it up?

MARCO: Of course. We'll head there now. Thanks for the tip!

AMELIA: No problem!

END
HERE!

HIDDEN GEM

NASA has named Las Vegas the brightest spot on Earth, as its glitz and glamour can be seen sparkling from space!

START
HERE!

Help Kendall and Marco stroll up and down the strip to find the Pink Flamingo Hotel and Geronimo's lost wallet.

IN A LATHER AT OLD FAITHFUL

AMELIA: Hi Marco! Did you find the wallet?

MARCO: I did! Las Vegas is one crazy place.

AMELIA: Well, now it's time to head somewhere more reliable - Old Faithful at Yellowstone National Park. We've had reports of a bag of toiletries in a geyser.

MARCO: Curious... I'm on my way!

When the first European person visited Yellowstone and returned with stories of gushing geysers and multicoloured pools, people dismissed his tales as wild exaggeration. They were wrong. Yellowstone's unique volcanic landscape led to it becoming the world's first national park in 1872.

HIDDEN GEM

Old Faithful is the most reliable thermal feature in the world. It erupts roughly every 90 minutes.

START
HERE!

Help Marco avoid the bears and bison in Yellowstone National Park and discover what Geronimo lost in the geyser.

SHOOOP, THERE IT IS!

Help Marco ski the trails at Whistler to find Geronimo's lost goggles.

MARCO: I found Geronimo's washbag!

AMELIA: Well done! Now grab some skis. I need you to get to Whistler in Canada.

MARCO: Awesome!

AMELIA: Geronimo thinks he may have lost his goggles when he fell on a difficult run.

MARCO: Ski you later!

Two million people visit Whistler, Canada, every year to enjoy the majestic mountains, over 200 exciting ski and snowboard trails, and of course the snow. Whistler gets over 11 metres of snow a year.

END HERE!

HIDDEN GEM

Whistler is named after a ground squirrel that makes a high-pitched warning call when it senses danger.
