Why Go?

Ethiopia is truly a world apart. Here there are over two millennia worth of ancient treasures scattered about, from the giant obelisks and hidden tombs of the legendary Queen of Sheba, to castles that would make Camelot jealous and the breathtaking rock-carved churches of Lalibela, the New Jerusalem.

Not to be outdone by human craftsmen, Mother Nature also let her creative juices flow here. East Africa's great Rift Valley has left some of its most memorable signatures in Ethiopia; milky brown lakes scar the south and deep canyons and steep peaks wrinkle the land...well, just about everywhere.

Though you can hit the highlights in a couple of weeks, it takes three or four for proper exploration. But no matter how long you stay, you'll probably wish for just a few more days.
