## Hiking & Paddling in Alaska

Much of Alaska's wilderness is hard to reach for visitors with limited time or small budgets. The lack of specialized equipment, the complicated logistics of reaching remote areas and lack of backcountry knowledge keeps many out of the state's great wilderness tracts such as the Arctic National Wildlife Refuge (ANWR). To experience such a remote and pristine place you may need to turn to a guiding company and pay a premium price.

But that doesn't mean you can't sneak off on your own for a trek into the mountains or a paddle down an icy fjord. There are so many possible adventures in Alaska that even the most budget-conscious traveler can take time to explore what lies beyond the pavement. Do it yourself and save.

The best way to enter the state's wilderness is to begin with a day hike the minute you step off the ferry or depart from the Alcan. After the initial taste of the woods, many travelers forgo the cities and spend the rest of their trip on multiday adventures into the backcountry to enjoy Alaska's immense surroundings.

There is also a range of paddling opportunities, from calm rivers and chains of lakes for novice canoeists to remote fjords and coastlines whose rugged shorelines and tidal fluctuations are an attraction for more experienced open-water paddlers. Alaska is an icy paradise for kayakers. Double-bladed paddlers can easily escape into a watery wilderness, away from motorboats and cruise ships, and enjoy the unusual experience of gazing at glaciers or watching seal pups snuggle on icebergs from sea level.

Here you'll find 14 popular wilderness excursions. They're either maintained trails or natural paddling routes that backpackers can embark on as unguided journeys provided they have the proper equipment and sufficient outdoor experience.

Hikes in Denali National Park are some of the best in Alaska, but as they are largely trail-less (with no multiday hikes on trails), you'll need to refer to the Denali National Park section (p263) to learn more about hiking there.
