## Why Go?

On South America's southern frontier, nature grows wild, barren and beautiful. Spaces are large, as are the silences that fill them. For the newly arrived, such emptiness can be as impressive as the sight of Patagonia's jagged peaks, pristine rivers and dusty backwater oases. In its enormous scale, Patagonia offers an innumerable wealth of potential experiences and landscapes.

Though no longer a dirt road, lonely RN40 remains the iconic highway that stirred affection in personalities as disparate as Butch Cassidy and Bruce Chatwin. On the eastern seaboard, paved RN3 shoots south, connecting oil boomtowns with ancient petrified forests, Welsh settlements and the incredible Península Valdés. Then there is the other, trendy Patagonia where faux-fur hoodies outnumber the guanacos. Don't miss the spectacular sights of El Calafate and El Chaltén, but remember that they're a world apart from the solitude of the steppe.

## When to Go

### El Calafate

**Nov–Mar** The warmest months, ideal for *estancia* visits and driving Ruta 40.

**Jun–mid-Dec** Right whales migrate to Península Valdés.

**Mid-Sep–early Mar** Coastal fauna, including penguins, marine birds and sea lions, abounds.
