

South Australia Trips

SOUTH AUSTRALIA IS LIKE VICTORIA'S BASHFUL COUSIN, but this wonderful state has nothing at all to be shy about. For a start, the state's wine regions are Australia's finest, with the collective weight of the Barossa Valley, McLaren Vale, the Clare Valley and Coonawarra enough to secure Australia's reputation among the elite of the world's wine producers.

Whales and other wildlife are coastal specialities, with Kangaroo Island, in particular, filled with furry creatures, and Port Lincoln offering unique opportunities to swim with great whites, sea lions and some really big tuna.

Add the Flinders Ranges, truly one of our favourite outback playgrounds, and Australia's best oysters, and you have one of Australia's most rewarding road-tripping destinations.
