GOING GREEN

The following attractions, accommodations, cafés, pubs and restaurants have been selected by Lonely Planet authors because they demonstrate a commitment to sustainability. We've selected hotels, pubs and restaurants for their support of local producers – so they might serve only seasonal, locally sourced produce on their menus. We've also highlighted farmers markets and the local producers themselves. In addition, we've covered accommodations that we deem to be environmentally friendly, for example for their commitment to recycling or energy conservation. Some of these businesses have received recognition for their efforts, such as ecological certification (by, for example, Boston Green Tourism, www.bostongreentourism.com). Attractions are listed because they're involved in conservation or environmental education. For more tips about traveling sustainably in Boston, turn to the Getting Started chapter (p24). We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, email us at <http://www.lonelyplanet.com/contact>. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
