GreenDex

It seems like everyone's going 'green' these days, but how can you know which businesses are actually ecofriendly and which are simply jumping on the sustainable bandwagon? The following listings have all been selected by Lonely Planet authors because they demonstrate an active sustainable-tourism policy. Some are involved in conservation or environmental education, and many are owned and operated by local and indigenous operators, thereby maintaining and preserving regional identity and culture.

We want to keep developing our sustainable-tourism content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, email us at talk2us@lonelyplanet.com.au.
