This Is the USA

Enormous in size and staggeringly diverse, the USA harbors astounding wonders. The sheer variety is simply breathtaking, from teeming city streets to mountains, coastlines and forests.

It has brimming metropolises whose names alone conjure a million different notions. Start with Los Angeles, Las Vegas, Chicago, Miami, Boston and New York City, then look more closely. The American quilt unfurls in all its surprising variety, revealing the red-hot music scene of Memphis, the easygoing charms of antebellum Savannah, the eco-consciousness of free-spirited Portland and the magnificent waterfront of San Francisco.

This is a country of road trips and great open skies. Four million miles of highway lead past red-rock deserts, below towering mountain peaks and across fertile wheat fields that roll toward the horizon. The scenic country lanes of New England, the lush rainforests of the Pacific Northwest and the Spanish moss-draped backdrop of the Deep South are a few fine starting points for the great American road trip.

Cuisine is another highlight of the American experience. New York locals get their fix of bagels and lox at century-old delis on the Upper West Side while, several states away, pancakes and fried eggs disappear under the clatter of cutlery at 1950s-style diners. Plates of fresh lobster served off Maine piers, oysters and champagne in California wine bars, beer and deep-dish pizza at Chicago pubs – there are so many ways to dine à la Americana.

The world's third-largest nation has made tremendous contributions to the arts. From the jazz of New Orleans to the country of Nashville, plus bluegrass, hip-hop and rock and roll, America has invented sounds that are integral to modern music. Cities such as Chicago and New York have become veritable drawing boards for the great architects of the modern era, while Hollywood continues to inspire.

“
