# GreenDex

The following associations, hotels, restaurants, shops and tour operators have been selected by Lonely Planet authors because they demonstrate a commitment to sustainability. We've selected restaurants for their support of local producers – so they might serve only seasonal, locally sourced produce on their menus. We've also highlighted the local producers themselves. In addition, we've covered accommodation that we deem to be environmentally friendly, for example for their commitment to recycling or energy conservation. Attractions are listed because they're involved in conservation or environmental education. For more tips about travelling sustainably in Gambia and Senegal, see the boxed text in the Environment chapter (p68). We want to keep developing our sustainable-travel content. If you think we've omitted someone who should be listed here, email us (see [www.lonelyplanet.com/contact](http://www.lonelyplanet.com/contact) for email addresses).
