## Why Go?

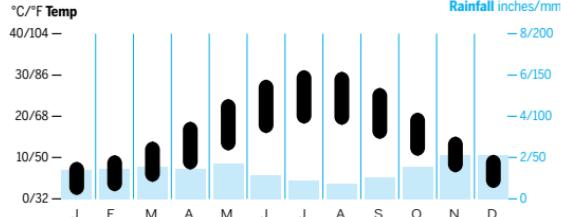

Vast northern Greece (βόρεια Ελλάδα) has the country's wildest terrain, and widest variety of cultures, cuisines and legacies. Its major city, Thessaloniki, is a hip metropolis with arguably the best nightlife in southeast Europe.

The region stretches from the sandy Ionian coast over Epiros' stark mountains, through Macedonia's lakes and vineyards, and across Thrace's mountains and plains all the way to Turkey. It has been for centuries a stomping ground for major civilisations such as the Macedonians, Thracians, Romans, Byzantines, Slavs and Turks. This mixed heritage has graced the region with spectacular churches, monasteries, castles, towers and museums.

For urban action, start with Thessaloniki or Ioannina. Beach-lovers will love the Halkidiki Peninsula's clear waters, the golden 'Epirot Riviera' and beaches east of Mt Olympus. Outdoor activities abound from the Vikos Gorge to the Prespa Lakes, protected Evros Delta and Dadia Forest Reserve. And, something is always happening, whatever the season.
