# GreenDex

The following is an index of the businesses and operators in Mauritius, Réunion and Seychelles that are doing their bit for sustainable travel. Our criteria for inclusion cover environmental (minimising negative environmental impacts), social or cultural (fostering authentic interaction and greater understanding between travellers and hosts) and economic (providing financial benefits for the host community). Our decisions about what to include were informed by the opinions of local experts. The index is not exhaustive but does provide a place to start for those who want to make informed choices.

Choosing sustainable travel products, just like running a business that is ecofriendly, is not an exact science and is also a continuous process. Because we know we haven't got it 100% right yet, we very much welcome feedback on our selection via [lonelyplanet.com/feedback](http://lonelyplanet.com/feedback). For more information on travelling responsibly see p19 and [lonelyplanet.com/responsibletravel](http://lonelyplanet.com/responsibletravel).

## MAURITIUS
