Why Go?

State border, irrigation lifeline and recreational magnet for waterskiers, canoeists, campers and golfers, the mighty Murray is Australia's longest and most important inland waterway. It's a stirring place of paddle steamers and house-boat holidays, wineries and orchards, bush camping, balmy weather and red-gum forests.

Most people think of the Murray as a wide, brown, slow-moving strip, but it changes character constantly as it flows from the mountains of the Great Dividing Range in north-eastern Victoria to Encounter Bay in South Australia – almost 2400km. Along the way it supplies vital irrigation for orchards, vineyards and farms. Some of Australia's earliest explorers travelled along the river, and long before roads and railways crossed the land, the Murray's paddle steamers carried supplies to and from remote sheep stations.

When to Go

Mildura

Anytime The Murray region enjoys year-round sunshine, especially Mildura

Sep–Nov Springtime sees some of the best local festivals, without the heat

Feb–Mar A good time for camping on the river after the holiday crowds have left
