## Why Go?

Baja, the earth's second-longest peninsula, offers over 1200km of the mystical, ethereal, majestic and untamed. Those lucky enough to make the full Tijuana to Los Cabos trip will find that the Carretera Transpeninsular (Hwy 1) offers stunning vistas at every turn. The middle of nowhere is more beautiful than you ever imagined, and people are friendly, relaxed and helpful – even in the border towns. Side roads pass through tiny villages and wind drunkenly along the sides of mountains. Condors carve circles into an unblemished blue sky. Some people simply sip drinks and watch the sun disappear into the Pacific. Some choose to feel the rush of adrenalin as they surf that perfect wave. Others walk through sherbet-colored canyons or stare up at the night's canopy of scattered-diamond stars. Whichever way you choose to take it, you'll discover some of Baja's many joys.

## When to Go

### Cabo San Lucas

**Jan–Mar** Flowers bloom, things get green. Whales and whale sharks play, and big waves delight surfers.

**Aug–Sep** Beaches all but empty. You'll have Baja all to yourself, but it's hot – even in the shade.

**Oct–Nov** Party-goers, don't miss Sammy Hagar's birthday bash or the Día de Muertos fiesta.
