GreenDex

It seems like everyone's going "green" these days, but how can you know which businesses are actually ecofriendly and which are simply jumping on the bandwagon?

The following have been selected by our authors because they demonstrate an active sustainable-tourism policy. Some are involved in conservation or environmental education, others engage in organic agriculture, and many are locally owned and operated, thereby maintaining and preserving local identity, arts and culture.

For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
