

OREGON TRIPS

Volcanoes have a way of wreaking havoc upon the landscape, but give them an eon or two to settle down and you get some gorgeous results. Take a few trips around Oregon and you'll see what we mean. On our hot springs tour you'll benefit immensely from Oregon's volcanic past. Snowcapped volcanoes will keep you constant company as you travel the scenic byways of the Central Cascades. And thanks to all that volcanic basalt, Oregon is home to a plethora of giant waterfalls – you'll see the best of them on our waterfall trip.

For your inner epicurean, we've consulted an Oregonian cheesemonger about his ultimate cheese tour, a Cannon Beach chef about his favorite seafood haunts and a respected local wine editor about Willamette Valley wineries. When you want to get away from it all take a trip to eastern Oregon, where you'll find North America's deepest river gorge, ghost towns and gold rush towns and, at the John Day Fossil Beds, some *very* surreal landscapes. And then there's the weird stuff... all in Oregon.

PLAYLIST

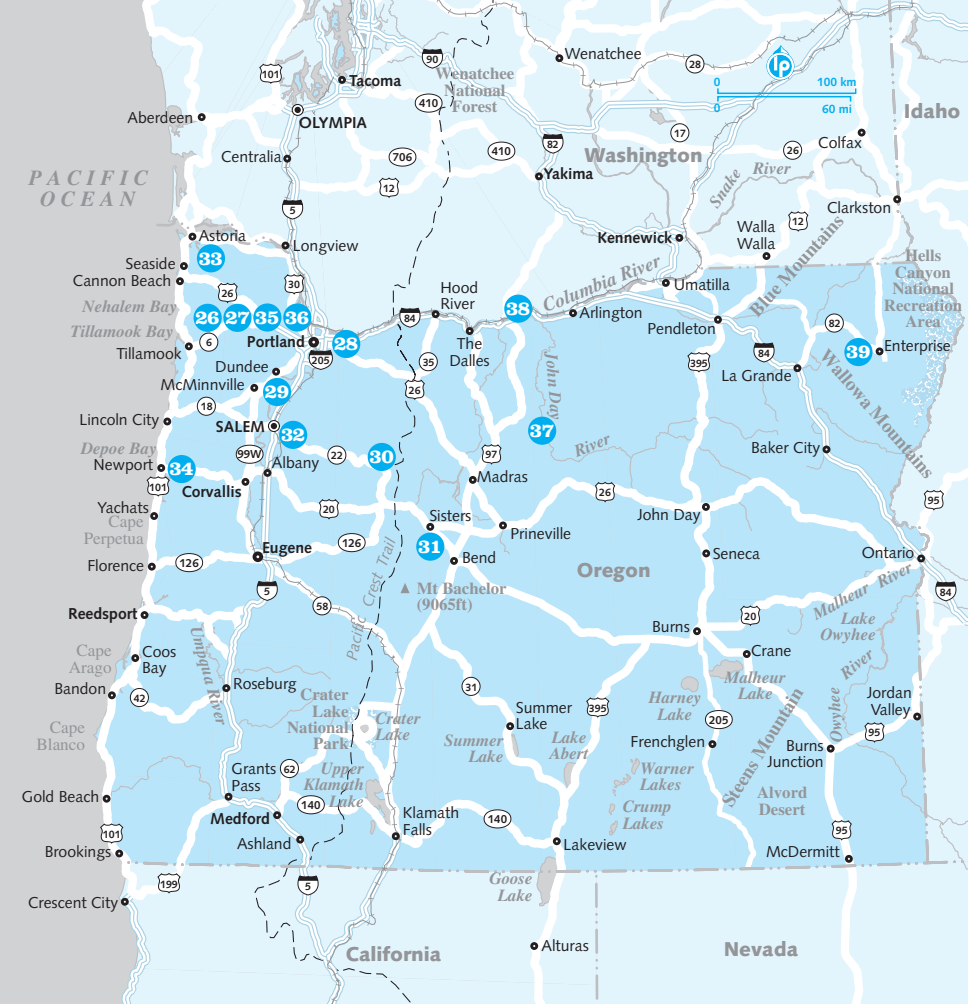

Trips require the proper soundtrack, so roll down the windows and turn up the volume on these Oregon tunes. When you're in reach of Portland's radio waves, tune to commercial-free KBOO (90.7) or the new KZME (91.1 FM).
