Why Go?

Campania could be a multi-Academy Award winner, scooping everything from Best Cinematography to Best Original Screenplay. Strewn with three millennia worth of temples, castles and palaces, it heaves with legend: Icarus plunged to his death in the Campi Flegrei, sirens lured sailors off Sorrento, and Wagner put quill to paper in lofty Ravello. Campania's cast includes some of Europe's most fabled destinations, from haunting Pompeii to Med-chic Capri. At its heart thumps bad boy Naples, a love-it-or-loathe-it sprawl of operatic *palazzi* (mansions), mouthwatering markets, and art-crammed museums. Home to Italy's top coffee and pizza, it's also one of the country's gastronomic superstars. Beyond its pounding streets lies a wonderland of lush bay islands, faded fishing villages and wild mountains. Welcome to Italy at its nail-biting best.

When to Go

Naples

Sep Hit the coast for warm, languid days without the August crowds.

The Subterranean City

Mysterious shrines, secret passageways, forgotten burial crypts: it might sound like the set of an *Indiana Jones* film, but it's actually what lurks beneath Naples' loud and greasy streets. Subterranean Naples is one of the world's most thrilling urban wonderlands; a silent, mostly undiscovered sprawl of cathedral-like cisterns, pin-sized conduits, catacombs and ancient ruins.

Speleologists (cave specialists) estimate that about 60% of Neapolitans live and work above this network, known in Italian as the *sottosuolo* (underground). Since the end of WWII, some 700 cavities have been discovered, from original Greek-era grottoes, to Paleo-Christian burial chambers and royal Bourbon escape routes. According to the experts, this is simply a prelude, with another 2 million sq m of troglodytic treats to unfurl.

Naples' dedicated caving geeks are quick to tell you that their underworld is one of the largest and oldest on earth. Sure, Paris might claim a catacomb or two, but its subterranean offerings don't come close to this giant's 2500-year history.

And what a history it is. Naples' most famous saint, San Gennaro, was interred in the Catacombe di San Gennaro in the 5th century. A century later, in 536, Belisario and his troops caught Naples by surprise by storming the city through its ancient tunnels. According to legend, Alfonso of Aragon used the same trick in 1442, undermining the city walls by using an underground passageway leading into a tailor's shop and straight into town. Even the city's dreaded Camorra has got in on the act. In 1992 the notorious Stolder clan were busted for running a subterranean drug lab, with escape routes heading straight to the clan boss's pad.
