GOING GREEN

It seems like everyone's going 'green' in Southwest USA these days, but how can you know which businesses are actually ecofriendly and which are simply jumping on the bandwagon? The following attractions, services, activities and accommodations choices have been selected by our authors because they demonstrate an active sustainable-tourism policy. Some are involved in conservation or environmental education, and many are owned and operated by local and indigenous operators, thereby maintaining and preserving local identity and culture. We want to keep developing our sustainable-tourism content. If you think we've omitted someone who should be listed here, or if you disagree with our choices, email us at talk2us@lonelyplanet.com.au and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
