GREENDEX

GOING GREEN

It seems like everyone's going 'green' these days, but how can you know which businesses are actually ecofriendly and which are simply jumping on the sustainability bandwagon?

The following sights and businesses have been selected by Lonely Planet because they demonstrate an active sustainable-tourism policy. Some are involved in conservation or environmental education, and many are owned and operated by local or indigenous operators, thereby maintaining and preserving local identity and culture. For national parks, parks and gardens, see the main index.

Some of the listings below have also been certified by **Ecotourism Australia** (www.ecotourism.org.au), which means that they meet high standards of environmental sustainability, business ethics and cultural sensitivity.

We want to keep developing our sustainable-tourism content (a work in progress!). If you think we've omitted someone who should be listed here, or if you disagree with our choices, email us via www.lonelyplanet.com/contact and set us straight for next time. For more information about sustainable tourism and Lonely Planet, see www.lonelyplanet.com/responsibletravel.
