Why Go?

If you've made it this far from Moscow or Běijīng, this 1500km ribbon of rail and sleeper is where things get interesting. Arguably the most varied stretch of the line, bid farewell to your *provodnitsa* (carriage attendant) along its length for some of the most memorable experiences Siberia has to offer.

Most travellers making only a single stop on their Trans-Sib odyssey do so in Irkutsk, surely Siberia's most engaging city. Only a smidgen over 350 years old, this grand city packs in heaps of history. When you tire of ornate facades, stuccoed palaces and streets of traditional timber dwellings, glorious Lake Baikal, the unrivalled highlight of any rail trip across Russia, is just a short bus ride away.

When the tracks finally peel away from Baikal's mind-boggling vistas, Trans-Sibbers find themselves in the Republic of Buryatiya, an exotically Asian retreat of Buddhist temples and shamanist traditions, increasingly coming under the gravitational pull of southern neighbour Mongolia.

When to Go

Irkutsk

Nov–Mar Snuggle into a Russian Railways blanket and watch the snowbound Siberian landscapes.

Mar Go ice fishing on Lake Baikal when Siberia's harsh winter turns its surface hard as steel.

Jul & Aug Join holidaying Russians on the sandy beaches of Lake Baikal's eastern shore.

Krasnoyarsk to Ulan-Ude Highlights

- 1 Gazing out across the southern shores of **Lake Baikal** from a slow train between Irkutsk and Ulan-Ude, possibly the most attractive section of the entire Trans-Sib line
- 2 Taking the ultimate Trans-Sib branch line trip on the **Circumbaikal Railway** (192) for some stunning Baikal vistas
- 3 Admiring the ostentatious 19th-century architecture of **Irkutsk** (p179), once known as the 'Paris of Siberia'
- 4 Walking, cycling or hitching a lift across frozen **Lake Baikal**
- 5 Mooching with the monks at Buddhist temple **Ivolginsky (Ivolga) Datsan** (p203)
- 6 Navigating a section of the **Great Baikal Trail** (p191) between Listvyanka and Bolshie Koty
- 7 Enjoying a couple of meditative days on wonderful **Olkhon Island** (p193) or getting away from it all in the often overlooked **Barguzin Valley** (p205)

i The Route

KRASNOYARSK TO TAYSHET 4098km from Moscow

Heading east out of Krasnoyarsk your fellow travellers will not have even fathomed there's a foreigner in their midst before the train crosses

the 1km-long Yenisey River bridge, whose 1898 original won a gold medal at the 1900 Paris Expo (along with the Eiffel Tower). The Yenisey traditionally marks the unofficial border between Eastern and Western Siberia.
