EXPLORE **REAL** HABITATS  
AROUND THE WORLD

With over  
**50** flaps  
to lift!

Can  
you find:

The vast, hot desert of  
the Australian Outback  
isn't an easy place to live.  
Animals seek shade during the  
day, moving out to find food during  
the cooler dawn, dusk and night.

The Indian jungle is full of life. Leaves rustle with monkeys, insects and snakes. Below the trees, tigers sneak through the grass, ready to pounce on passing animals.

Can you find:
