**Bryce Canyon National Park**

**Bryce Amphitheater**
The highest concentration of hoodoos in the park. Look out on Silent City; various paths twist to the canyon floor 1000ft below.

**Paria View**
This is the place for sunset photos, where hoodoos are set aflame by the last light.

**Rainbow Point**
The end point of the park road looks out onto a vast landscape of sloping plateaus, tilted mesas and towering buttes, with trails.

**Bryce Canyon City**
The free park shuttle starts at this village just outside the park, which also has ample lodging and dining services.

** Peekaboo Loop Trail**
A heady place for horseback riding is beneath the soaring Wall of Windows on this trail; one of few places horses are permitted in the park.
