Capitol Reef National Park

HICKMAN BRIDGE
Scuttle up red-rock cliffs and over slickrock to stand underneath this gorgeous natural bridge.

GOBLIN VALLEY STATE PARK
Head outside Capitol Reef for Gothic towers, wicked formations and amazing canyoneering in this off-the-beaten-track state park.

CAPITOL DOME
Capitol Reef is known for its enormous Navajo sandstone domes, one of which resembles the US Capitol building as it appeared to settlers in 1850.

PETROGLYPHS
Marvel at the evocative and rather expressionistic petroglyphs left by the Fremont and Ancestral Puebloan people throughout the park. Some of the best are along Hwy 24.

FRUITA
Pluck apples, peaches and cherries in this historic orchard right in the middle of the park.

COHAB CANYON
Scale the Waterpocket Fold in search of secret slot canyons and skyscraping lookouts.
